- a. Mostly ready
- b. Biggest delay will be setting up user logins—Maybe able to tie into Windows email login
- c. Can tie into WF—so if logged into WF will auto-login to BCCirc and vice versa.

3) New WF Features

- a. Upgrade: Next week Wednesday Dec 13.
 - i. Address in user search,
 - ii. UserKey searchable
- b. New passwords – tomorrow!
- c. **Lost Claimed** – Handout
 - i. Easier procedure for patrons who know they lost an item and want to pay.
 - ii. Easier procedure for billing patron for Claims Returned after having searched for item.

4) Graphic Novels/Series/ Volumes!! -- Update

- a. Series volumes with subtitles get their own title record.
 - i. Volume numbers on individual title records should NOT get “v.” in the call number. If you want the Volume # to display in the call number, use the “#” instead. IF there is a |z analytic for a volume only that volume will fulfill the hold.
- b. Series volumes with only numbers and no subtitle go on the shared title record.
 - i. This is where using “|zv.” is important and it is important for everyone to use the same format. The standard is “v.”—lowercase, period, no space.

5) Catalog updates:

- a. FAC issues fixed
- b. Audio preview for some titles– Louise Penny
- c. Library of Things links fixed in catalog, so work is starting to properly identify and catalog the various Things already in the system.

6) Library of Things – Handouts

- a. Have standardized subseries and most formatting for entering Things.
- b. GMD.
- c. Combine versions of games like Monopoly, Trivial Pursuit?
