

Technology updates since November 2021

Network things (Pete & Jay):

- Installed next gen AV on servers
- GLPL/WTPL moved to Badgernet. Markesan, Winneconne, Oakfield and Wild Rose are next
- Windows 11 rolling out (just on new PCs)
- Set up Westfield in temporary space
- Started migration to Drupal 9 process by migrating NPL's website
- Resolved longstanding oddity with certificates
- Log4j scare – server checking, updating, patching, etc (actually everyone)

Electronic Resources (Keetra):

- Lots of ResCarta work:
 - Added Digitization page to Extranet;
 - Migrated OPL's collections;
 - Establish documentation process
- Completed "back-end data aggregation" for Research page project.
- Verifying valid IP addresses with vendors so that inhouse use of resources authenticate properly.
- 2021 Overdrive Stats by User Cat1

ILS (Karla & Melissa):

- All-WALS
- Researching Enterprise enhancements
- Statistics—Annual and other
- Interviewing and training Crystal.
- Year-end database cleanup
